

Lightning Adapter

Lightning ▶ 3.5mm Audio Adapter

Part no. ○ EL8P35A-WH

Apple Lightning

3.5mm Audio

Enhanced Audio

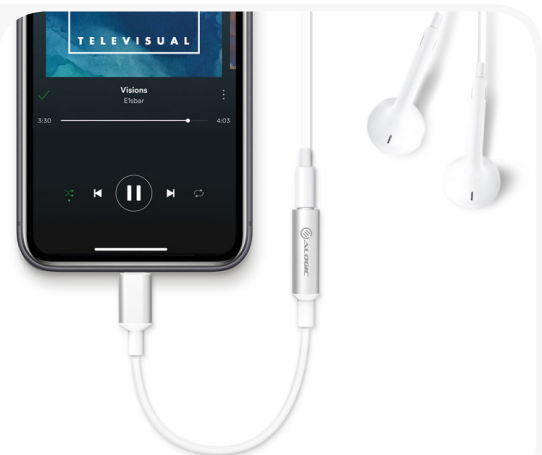

Active Chipset

The adapter is equipped with an inbuilt active chipset to improve your audio quality for the best listening experience.

Wider Compatibility

The Elements 6cm Lightning to 3.5mm Audio Adapter is designed to be compatible with all Apple lightning-devices that lack a 3.5mm headphone jack (female) and restores its in-line audio support. The adapter is ideal for listening to podcasts, Audiobooks, streaming music and to connect an auxiliary cable.
