

USB 3.0 Docks

USB 3.0 Universal Dual Display Dock

Part no. USB3DHDS

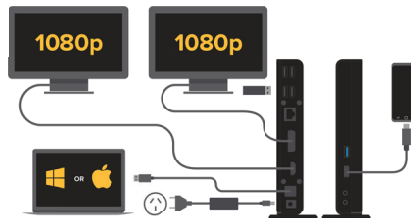

Expand your computer's capabilities:

The Universal USB 3.0 docking station (USB3DHDS) provides extra ports to the computer that has extra connectivity needs. Through the docking station, you can extend the connection of a computer to more USB peripherals, Ethernet network, speaker and microphone using only one USB port on your computer.

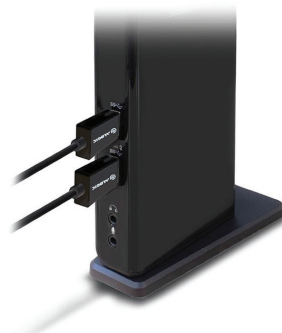

Expand your monitor setup with resolutions up to 2048 x 1152.

Connect to a variety of USB 3.0/2.0 compatible devices, such as your keyboard and mice, and add versatility to your working environment.

Flexible to suit your environment

Comes with a stand to allow you to use it vertically. Compact size with minimal footprint. USB 3.0 ports for fast data transfers, with a fast charging port to top up your supported devices in no time.

DisplayLink

Uses DisplayLink Technology to simplify USB docking with a wide variety of devices, using widely compatible drivers to suit whatever system you're using.
