

## 1 Overview

The ALOGIC VGHD35 allows the user to convert and transmit the video signals from a VGA embedded device, such as a PC or a laptop to a HDMI enabled device, such as a projector or a monitor/TV. The device supports audio out from the HDMI output when the 3.5mm input is connected along with the VGA input. The compact size makes the device handy to carry for on the go use.

## 2 Features

- \* Compact size and easy to carry design
- \* VGA to HDMI conversion @ Full HD
