Connect Mini HDMI Source to a VGA Display

The ALOGIC 15cm Micro HDMI to VGA Female Adapter With 3.5mm Audio Adapter is mostly used to convert a Digital HDMI signal to an Analogue VGA signal with an analogue audio output.

* The adapter may need external power through the Micro USB port on the adapter via a Micro USB cable when used with certain computers and Media Players for proper functioning. The Micro USB cable is not included in the box, needs to be bought separately.
