3rd level subcategory. This is the default product list page that just lists the products.

Decorative banner at the top. Reaches edge of the screen. Has a translucent tab overlay to highlight the page title as show. Have fields for both title and subtitle, but have the option to leave subtitle out if unneeded.

List amount of products there are on the page

The category list shown in rows of 4

Products are shown with the product photo at the top, with the information section at the bottom. The information section will contain the following information: Title, “Shop now >” link to go to the product page, and relevant product info such as lengths available and number of colours. The relevant product info is dynamic and it can be included or removed depending on what the product has.

3rd level subcategory. This is the default product list page that just lists the products.

For certain categories they won't have the 2nd level subcategory, and it'll go straight to this 3rd level subcategory.

Decorative banner at the top. Reaches edge of the screen. Has a translucent tab overlay to highlight the page title as show. Have fields for both title and subtitle, but have the option to leave subtitle out if unneeded.

List amount of products there are on the page
