The side nav bar contains the same categories and sub categories as the top nav bar. it's an accordian menu style where the category will expand or shrink when you click on the arrow button. It will expand to show the subcategories or shrink to hide them.

If you're on a page with subcategories. The side nav bar will on default show it expanded to reveal the sub-categories.

The selected category will be highlighted by a bar of yellow as shown. The subcategories are in a light gray background to contrast it from the categories.

Top level category. Goes when you click on the audio visual cables link.

Decorative banner at the top. Reaches edge of the screen. Has a translucent tab overlay to highlight the page title as show.

Category list and links. The category list is present in these images banners that will bring you to the respective sub category.

Featured product list will link to the respective products.
