Re: Industrial Designer Position

I am a highly motivated and qualified Industrial Designer with over seven years experience within the architectural joinery, cabinetry, furniture and freelance digital design space. I am a creative designer with engineering and manufacturing knowledge as well as project management experience. I consider myself a truly a multi-disciplinary designer who works in millimeters to kilometers, pixels to powder coat. I am passionate about creating user centered solutions with a outcome focused approach and a can do attitude.

Skills and Strengths I bring to the role are:

- Excellent client service skills – Able to build strong working relationships and foster client and stakeholder relationships.
- Read, translate and create plans, technical drawings into Shop and Production Drawings.
- Experienced in project management from inception and concept stage through to completed project.
- Experience with external and internal stakeholder communication, including Project Managers, Architects, Interior Designers, Builders, Engineers and other trades/fabricators as well as coders, copywriters and graphic designers.
- Extensive experience using various design software including Solidworks and Keyshot, AutoCad, SketchUp, Revit, Adobe Photoshop, Illustrator and Indesign as well as Joinery specific software including Cabinet Vision and Microvellum.
- Experience in designing for human factors and ergonomics.
- Experience with Aconex, Document Management Software, although limited.
- Design for manufacture including work instructions, installer information, cutting lists and CNC optimization. As well as CNC programming and running of machine, although limited.
- Experience with tools and machinery for prototyping and batch production.
- UX & Service design skill set for discovering insights for both digital and physical solutions.
- Able to collaborate and work well in a team environment and able to work independently.
- Well-developed communication skills. Verbal written and active listening skills.
- Strong attention to detail and work ethic.
- Flexible with working hours.
- Professional and individual style and approach.
- Good knowledge of OH&S policies and procedures.

I am passionate, creative designer who appreciates the craft of design. I have attached my CV that further illustrates my ability to become part an innovative multi-disciplinary team. I have a high attention to detail and proven documentation and communication skills. I am technically skilled and see myself as a value adding member to your team.

I look forward to discussing the position in person and can be contacted on 0422 024 124.

Regards

Aaron Savvides
