Carousel banner, it goes to the edge of the screen. Carousel controls pop out only when moused over. Translucent arrowsnear the edge and Banner selection at the bottom left.

Main body banners. Modular in design, it will use 2 sizes of banners, the slimmer ones on the left or the thicker one on the right. We want to make it so we can swap out which type of banners we can use according to what we need, for example:
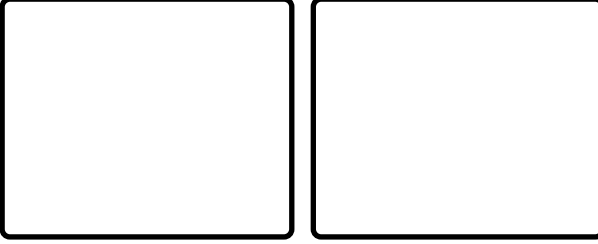

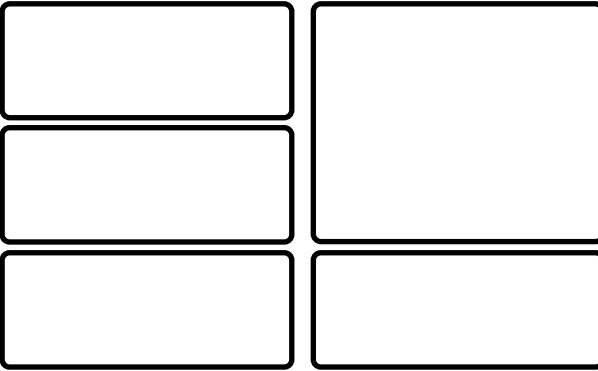

Ex 1.

Ex 2.

Ex 3.
