4K Video Output	USB 3.0 Hub
Gigabit Ethernet	SD & Micro SD Card Slot
Power Delivery Through USB-C	Audio & Voice Support

## Package Contents

• USB-C Dock X 1

• User's Manual x 1

Warranty

1 Year

USB-C: One cable for Power, Video & Data

The dock connects to your USB-C enabled laptop by just one single USB-C cable to charge your laptop, transfer data, connect to an ultra HD display, Gigabit Ethernet, Audio and memory card at the same time. This feature eliminates the hassle of connecting multiple cables for power and data separately to your laptop.
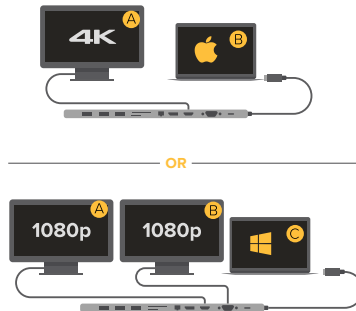

The docking station supports USB-C PD(Power Delivery) and can charge your laptop with up to 60W of power through the USB-C connection.

Specifications

• User Interface :

  Dimensions :279(L) X 72(W) X 14(H) mm
  Weight: 313g

• System Requirement:
  USB-C Ports with DP alt Mode, Windows® 10 and above and Mac OS

Desktop Slim Dock

Compact with a very small foot print for ease of use on a desk. Aluminium construction makes the dock light weight and rugged at the same time.

The versatile dock allows you to connect an HDMI 4K, DisplayPort or VGA display, Gigabit Ethernet, USB Expansion, Audio Jack & Memory Card Slots. Only one monitor is usually supported from one of the three displays but in some instances with compatible monitors it also supports dual monitor set up in extended or mirrored mode.

Plug & Play: DisplayPort Multi-Stream Transport (MST)

The dock is powered by the Multi Stream Transport technology , which powers all the difference functions of the dock though the USB-C Port (port must be DP alt. mode enabled). The technology enables a plug and play install.
